

**THE SIMPLE WAY
TO ADD MORE POWER
TO YOUR
BUSINESS PROCESSES**

HERO

TAKE CHARGE OF CHANGE

WE WANT YOU TO FEEL THE POSITIVE EFFECTS OF CHANGE RIGHT AWAY. SO WE HAVE TAKEN OUR EXPERIENCE FROM THE PRINT AND BUSINESS WORLD TO CREATE HERO - A BESPOKE DOCUMENT MANAGEMENT TOOL THAT ADDS MORE POWER TO YOUR BUSINESS.

THE SMARTER WAY TO WORK

In modern business processes, the ratio of “application controlled data” versus unstructured “user generated data” can be as much as 1:10.

Hero instead lets you migrate and integrate both types of data by adding “meta-data” to any of your existing documents - and at any point in your pre-defined processes. Now you can stay in control of all types of data - no matter when it's added or what system it comes from.

LIBERATE YOUR WORKPLACE

By giving your staff a simple way to manage any number of documents - invoices/orders/applications - and distribute them across any system to any media: print, fax, email, PDF and web, you are always in control of your processes. All from one, fully customizable software solution, installed at the desktop.

INTEGRATE EASILY

Flexible software architecture

- Server application and client model
- Highly scalable
- No client code stored locally
- Unique package retrieval on start up or configuration

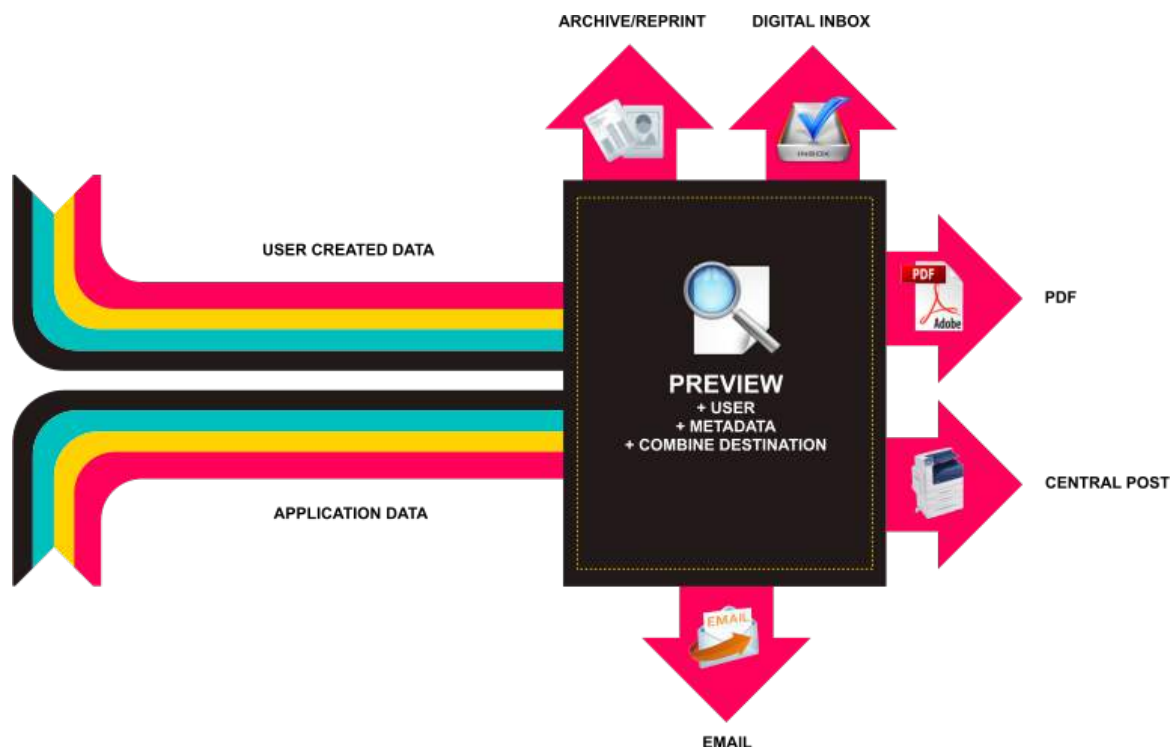

Destinations

- All documents stored centrally
- User controlled print preview
- Apply default processes or specific actions for each document type

Process control

- Add meta data to pre-defined processes in real-time
- Connect documents with other halted or stored documents from your archive
- Get instant follow-up for each document

HERO MANAGES STRUCTURED AND UNSTRUCTURED DATA FROM INPUT TO OUTPUT

STAY IN CONTROL

SBAB BANK - CASE STUDY

Manually faxing cases became a bottleneck for SBAB Bank. So Hero was tailored for SBAB Bank to allow users to preview, archive and then send faxes as well as emails, PDFs and web documents directly from the desktop.

SBAB staff now face less distraction from output related issues, and are instead free to concentrate on providing better quality case resolution - managing customer requests themselves as they emerge.

WITH HERO, SBAB BANK:

- Bridged multiple systems and applications
- Maximized efficiency of document processes
- Delivered multiple formats over multiple channels
- Improved process and document-level security
- Freed-up IT resources
- Made a return on investment in six months

AUTOMATE YOUR DOCUMENT PROCESS

Add More Power

- Compatible with multiple channels and vendors
- Supports open APIs
- Requires no application changes

Stay In Control

- A single user-controlled interface
- Real-time document re-engineering
- Pre-flight preview
- Multi-format distribution: print, fax, email, PDF & web

Integrate Easily

- Seamless document management from any system
- Internet and presentation XML
- Fully open interaction and connectors to all ERPs

FREE UP RESOURCES

Manual handling swallows up 90% of your total visible print output costs. but with Hero you could save up to €650 per user, per year.

HERO REDUCES YOUR PRINT COSTS, BY REDUCING MANUAL HANDLING

ARE YOU READY FOR CHANGE?

From the first moment you talk to us, we listen to what your challenges are. We then wholly customize Hero for you. And provide you with accessible and dependable support from the moment you start using it.
