Last revision date: 12 September 2022

INTRODUCTION

As a participant in the United Nations Global Compact, Storskogen Group AB and its subsidiaries ("Storskogen") supports the Universal Declaration of Human Rights and the International Labor Organization's Declaration on Fundamental Principles and Rights at Work as well as the OECD Guidelines for Multinational Enterprises. Storskogen strives to adhere to the principles set forth in these standards and has based Storskogen Business Partner Code of Conduct (the "Code") on these.

Storskogen expects Business Partners to support the principles of UN Global Compact and act in accordance with the Code, and at a minimum, requires that all Business Partners comply with applicable laws and regulations within the geographies where they

operate and be open and cooperative with the regulators enforcing such laws. In instances where expectations outlined in the Code differ from local laws, Business Partners must follow these expectations within the bounds of applicable local laws.

The long-term ambition and expectations on suppliers to Storskogen is that suppliers shall work systematically with sustainability in their own operations and in the supply chain to comply with Global Compact's 10 principles. This means that suppliers are expected to have routines for identifying and managing risks related to human rights, labour rights, environment, and anti-corruption.

COMPLIANCE WITH THE CODE

Storskogen will evaluate Business Partner compliance with the Code during the Business Partner evaluation and selection process, or upon Storskogen's request. During the process, Business Partners will be required to complete a self-assessment questionnaire on compliance with the Code. Business Partners may be asked to re-affirm compliance with the Code periodically. Upon request, Business Partners will provide written information on its policies and practices related to compliance with the Code.

Storskogen is committed to working with Business Partners to improve performance on topics addressed by this Code and expects Business Partners to agree to work together with Storskogen to jointly address applicable and relevant topics.

Business Partners shall ensure that its subcontractors, if any, comply with the Code, and acknowledge that it is responsible for its subcontractors' violations.

In the event of non-compliance with, or violation of, the Code, Storskogen may give the Business Partner a reasonable opportunity to respond with proposed corrective actions, unless the violation is severe or incurable, or there is a violation of law. Storskogen may suspend or terminate its relationship with the Business Partner and/or disclose the matter to the appropriate authorities if there is a violation of law.

Any questions regarding the interpretation of this Business Partner Code of Conduct or Storskogen's approach to sustainability in our supply chains in general can be raised to code@storskogen.com
